**It's no lie**

As we were going to Germany, to sail the Baltic Sea  
Due to some assholes, the last time it could be

Ref:

**It's no lie, it's no lie , it's no lie, no lie, no lie**

To sail these ships on the Baltic Sea, they can't go where they like  
According to regulations made up by some dike

Ref:

**It's no lie etc.**

This Baltic Sea it is so nice the every day another port  
But with these regulations we have to stay on board

Ref:

the Black Flag we are showing is our protest mark  
if nothing's gonna change, then the future will be dark

Ref:

The big shots with their paper things they do not write for us  
Those things are not working so don't you fuck with us

Ref:

We rounded all together in the Marstal docks  
Petition was handed over to the local Mayor

Ref:

We hope the donkeys listen when we cry out loud  
Hééé don't fuck with us and take away our doubts.
